## Official Board Game

Drive your steam train around the railway at Amerton, looking out for landmarks around the railway. Will you get all the way round without the fire going out? Will you drop the shovel? Maybe you will get it all just right and be extra speedy!

Find out more about the railway at [www.amertonrailway.co.uk](http://www.amertonrailway.co.uk)

### Preparation

- Print out the board and the Cards
- Stick the two halves of the board together and cut out the game cards and give them a good shuffle
- Place the game cards next to the board, find player counters (maybe you could make your own engines?) and 1 dice (or use an online version like [random.org/dice](http://random.org/dice))

### The Rules

- Starting with the youngest player take it in turns to roll the dice and move forward that number of spaces.
- If you land on a landmark space (something written on it, except start/finish) pick up a card and do as it says. This is the then the end of your turn.
- First to the finish wins!
